March Madness Moves to Resort Bookings *Spring Season Heats Up Vacation Appetites*

CARLSBAD, CA (March 13, 2010) – What better way to celebrate spring than at a fabulous resort in a spacious vacation condominium? This is the time of year that family gatherings, girls' getaways and "mancations" kick into gear. According to Sherri Weeks, General Manager of ResorTime.com, the popular site for booking timeshare resort condominium vacations, "the very thought of spring brings about an increase of visits to our site. We are encouraging visitors to book their warm weather getaways early before there are increases in prices and decreases in availability."

"The desert is probably the most popular destination during March and April," says Weeks.

For golfers, the first choice (according to ResorTime's Best of 2009 poll) is **The Ridge on Sedona Golf Resort**. The resort offers its own on-site championship golf course and a swimming pool while nearby recreational opportunities include tennis courts, jeep tours, hiking and fishing in the stunning natural rugged red rock wonders of Sedona.

In Palm Desert is the latest resort to capture the affection of ResorTime travelers (Twitter @ResorTime) is the **Westin Desert Willows Resort**. The surrounding desert, Santa Rosa Mountains and Joshua Tree National Park offer ample opportunity for exhilaration. This is a great time of year to enjoy the outdoors with a hike or horseback ride or mountain bike ride. For a unique view, ResorTime.com travel experts suggest a hot air balloon tour or a ride on Palm Springs Aerial Tramway in the San Jacinto Mountains.

Nevada's Las Vegas is another popular warm weather destination during March. A stay at the **Cancun Resort** incorporates the best of both worlds – the secluded South Las Vegas Boulevard location with a relaxing environment during your vacation with the action packed Las Vegas Strip via the resort's complimentary shuttles.

Weeks says skiing and the good "old fashioned" beach vacations are also popular during March. Many of their guests head to **the Coronado Beach Resort**, in the idyllic island of Coronado just over the bridge from San Diego. Up the coast is **The Carlsbad Inn**, which vacationers have been frequenting for more than two decades with consistently rave reviews.

ResorTime.com typically shows an increase in bookings of 25% during the spring months. This year is no exception. "Despite what people are saying about the economy more and more people are realizing that vacationing on-site at a resort makes economic sense. Kitchens with dining areas, outdoor barbecues, on site activities and lots of room in which to stretch out are all a big draw," says Weeks.

ResorTime.Com, rapidly becoming the go-to source for spacious condominium rentals, has hundreds of luxury resorts for nightly and weekly rentals that accommodate leisure, business and group travel. All ResorTime Hot Deals and Value Packages change on an ongoing basis. For more information click on www.resortime.com or call 877-477-7368.
